<tr>
<td><strong>LUVODUR® AW 211</strong></td>
<td>Alkylated Triphenyl Phosphorothionate</td>
<td>Can replace phosphate esters, ZnDTP and chloroparaffins. Good wear protection. Excellent thermal stability and film strength at high temperatures.</td>
</tr>
<tr>
<td><strong>LUVODUR® TPPT</strong></td>
<td>Tris-Phenyl Phosphorothionate</td>
<td>Improves general properties of industrial lubricants with EP/AW corrosion protection volatility of the additive by TGA and other properties.</td>
</tr>
