

Commercial Name	INCI	Producer	Descrizione
DAIKON SEED EXTRACT	Raphanus sativus seed extract	NNP	Daikon Seed Extract is a natural emollient derived from the seeds of Raphanus sativus. Its fatty acid composition distinguishes it from other botanicals currently used in the cosmetics and personal care industries. The result of this unique chemistry is a delicate, non-oily feel on the skin. An extraordinarily light color and absence of odor make the material suitable for a variety of applications.
DUB 810 C	Cocco Caprylate/ Caprate	Steararinerie Dubois	This hyper-emollient ester leaves a silky finish on the skin and heightens the formula's hydrating power. In makeup it is effective for countering drying effects, for example in long-hold or waterproof formulas. Its emollient action is also prized in shaving products to improve razor glide
DUB 810 NPG	Neopentyl Glycol Dicaprylate/ Dicaprate	Steararinerie Dubois	Diesters of caprylic and capric acids and neopentylglycol. Colourless or pale yellow liquid, with an oily consistency and a light odour.
DUB APRILOSE+	Polyglyceryl Apricor Kernelate	Steararinerie Dubois	Emollients with a rich and non greasy touch and melting in emulsions while conferring body and creamy texture. co-emulsifiers in emulsions W/O good with other emulsifier in order to increase their potential and the stability of emulsions.
DUB CO	Ethylhexyl Cocoate	Steararinerie Dubois	Non occlusive esters with good surface expansion properties and good absorption. It replaces the IPM.

Commercial Name	INCI	Producer	Descrizione
DUB DIPA	Diisopropyl Adipate	Steararinerie Dubois	Dry esters with high power of superficial expansion. Suitable for vanishing products. Good solubilizer for chemical sun filters. Fixer in alcoholic fragrance base.
DUB DIS	Diisopropyl Sebacate	Steararinerie Dubois	Diester of sebacic acid and isopropyl alcohol. Colourless and odourless liquid with a smooth and dry touch promoting good properties as a solubilizer.
DUB DNPG	Neopentylglycol Diheptanoate	Steararinerie Dubois	Good surface expansion properties, non-occlusive, hydrophobic. Evanescent texture.
DUB DONPG	Neopentylglycol Diethylhexanoate (ex Neopentylglycol Dioctanoate)	Steararinerie	Light ester with high spreadability, non-occlusive, hydrophobic. Evanescent texture.
DUB ESTOLINE	Ethylhexyl polyhydroxystearate	Steararinerie Dubois	A brand new polymeric ester from vegetable origin and 100% biodegradable. Film-former and conditioner on the skin with a texture not greasy and not sticky.
DUB DPHCC	Dipentaerythrityl Hexacaprylate Hexacaprato	Steararinerie Dubois	Emulsifier, emollient, cashmire touch, using for formulation of cream for face and body, for foundation and for hair styling gel, excellent for foam shave.
DUB IN1618	Cetearyl Isononanoate	Steararinerie Dubois	Non oily light ester, moisturiser, with good spreadability.
DUB ININ	Isononyl Isononanoate	Steararinerie Dubois	High spreadability, film-former, pleasant texture. Solubilizer for silicones. Suitable for sun care and make-up products. Good wetting agent for pigments.

Commercial Name	INCI	Producer	Descrizione
DUB ININ A	Isononyl Isononanoate	Steararinerie Dubois	
DUB IPM	Isopropyl Myristate	Steararinerie Dubois	Solvent use in can spray, solvent for fragrance and aroma, plasticizer for candle, foaming bath, aftershave lotion, binder in compact powders and eyeshadows, good spreadability, slippery, non sticky, non greasy. DUB IPM should be used in organic cosmetic products.
DUB IPP	Isopropyl Palmitate	Steararinerie Dubois	Fluid cream and oily preparation, conditioner, good spreadability, slippery, non geasy, non sticky. Fragrance solubilizer.
DUB ISG	Glyceryl Isostearate	Steararinerie Dubois	Thickener, solubilizer for dye solutions. Co-emulsifier for micro-emulsions.
DUB ISIP	Isopropyl Isostearate	Steararinerie Dubois	Ester of isostearic acid and isopropyl alcohol. Pale yellow limpid liquid with an oily consistency and a light odour.
DUB ISIS	Isostearyl Isostearate	Steararinerie Dubois	Ester with long chain ramification. Good spreadability, rich texture, good lubricating and fattening properties.
DUB LIQUIDE 85	Cetearyl Ethylhexanoate (ex Cetaryl Octanoate)	Steararinerie Dubois	Non oily esters with good power of superficial expansion.
DUB LIQUIDE 85 IP	Cetearyl Ethylhexanoate, Isopropyl Myristate	Steararinerie Dubois	Mix of non oily esters with good power of superficial expansion.
DUB LM	Myristyl Lactate	Steararinerie Dubois	Lactic esters with good lubricant power. Velvet texture. Around PF25 °C. Humectant.

Commercial Name	INCI	Producer	Descrizione
DUB MCT 5545	Caprylic-Capric Triglycerides	Steararinerie Dubois	Triglyceride C8/C10.
DUB MDIS	Diisostearyl Malate	Steararinerie Dubois	Plastifying and shining agent for make-up applications. Film-former.
DUB MM	Myristyl Myristate	Steararinerie Dubois	Emollient ester with good lubricant power. Around PF 40°C.
DUB MOD	Octyldodecyl Myristate	Steararinerie Dubois	Film-former, high spreadability, fattening agent with soothing properties.
DUB OD	Decyl Oleate	Steararinerie Dubois	Substitute of castor-oil. Low power of superficial expansion. Greasy texture.
DUB OD25	Octyldodeceth-25	Steararinerie Dubois	C20 branched chain fatty alcohol, ethoxylated with 25 moles of ethylene oxide. Cream coloured hard wax, with a greasy consistency and a light odour.
DUB ODOL	Octyl Dodecanol	Steararinerie Dubois	Lubricant, broad spectrum use.
DUB OMEGA 3EE	Ethyl Linolenate, Ethyl Oleate, Ethyl Linolenate	Steararinerie Dubois	Rich in Omega 3, for the skin care excellent for the anti aging good for dry Skin.
DUB OMEGA 6EE	Linoleic Acid, Oleic Acid, Linolenic Acid	Steararinerie Dubois	Emollient, body care slimming gel, for the skin care be use for regenerating, anti-age, anti-wrinkles; For the formulation of make up using for gloss.
DUB OMEGA 6EG	Ethyl Linolenate	Steararinerie Dubois	Emulsifier, Firming lotion
DUB PC	Cetyl Palmitate	Steararinerie Dubois	Consistence factor. Substitute of spermaceti. Around 51°C.

Commercial Name	INCI	Producer	Descrizione
DUB PENCIL	Hydrogenated Coco-Glycerides	Steararinerie Dubois	Consistency factor studied for the formulation of make-up pencils and sticks.
DUB PIS	Isostearyl Palmitate	Steararinerie Dubois	Ester of palmitic acid and isostearyl alcohol. Very light yellow liquid with an oily consistency and a light odour.
DUB PO	Ethylhexyl Palmitate	Steararinerie Dubois	Emollient esters, non occlusive.
DUB PTB	Pentaerythrityl Tetrabeheenate	Steararinerie Dubois	As a wax ester is ideal for makeup formulations, producing textures that are ultra-pleasurable on the skin while giving structure to the finished product. It also improves the makeup's hold on the skin with no drying sensation. Its powdery matte finish makes it an indispensable ingredient in high-quality foundations and the new generation of lipsticks.
DUB PTCC	Pentaerythrityl Tetracaprylate- Tetracaprate	Steararinerie Dubois	Liquid esters, no fatty, lubricant using for the application for make- up, skin care, sun care e hairstyling. Enhance the application of cream and lotion, pigment wetter, enhance rub-resistant and glossing in lipstick.
DUB PTIS	Pentaerythrityl Tetraistearate	Steararinerie Dubois	Emollient ester, lubricant, water repellent. Film-former for lipsticks.
DUB PTO	Pentaerythrityl Tetraethylhexanoate (ex Pentaerythrityl Tetraoctanoate)	Steararinerie Dubois	Non greasy lubricant Esters.

<b>Commercial Name</b>	<b>INCI</b>	<b>Producer</b>	<b>Descrizione</b>
DUB SIS 16	Isocetyl Stearate	Steararinerie Dubois	Emollient ester with good surface expansion and strong lubricant properties.
DUB SO	Ethylhexyl Stearate	Steararinerie Dubois	Good expansion power, pleasant texture.
DUB SOLIDE	Stearyl Ethylhexanoate, Stearyl Caprylate	Steararinerie Dubois	Consistency factor for lipstick and make-up pencils, emollient, lubricant with excellent water repellent properties.
DUB SSIC	Isocetyl Stearoyl Stearate	Steararinerie Dubois	Esters with strong emollient properties, solubilizer for pigments.
DUB TMI	Triisodecyl Trimellitate	Steararinerie Dubois	Filming viscous esters. Low power of superficial expansion, strong texture, water repellent property, protective. Substitute of vaseline.
DUB TOCG	Triethylhexanoin (Ex Trioctanoin)	Steararinerie Dubois	Wetting/dispersing agent for pigments
DUB VCI 10	Isodecyl Neopentanoate	Steararinerie Dubois	Esters at high power of superficial expansion and big volatility. Velvety texture. Substitute of volatile silicones.
DUB VCI 18	Isostearyl Neopentanoate	Steararinerie Dubois	Plastifier emollient esters.
DUB VINYL	Dipentaerythryl Pentaisonaoate	Steararinerie Dubois	Provides a transparent, glossy vinyl finish in polysensorial make-up, film forming, non sticky.
DUB ZENOAT	Dicaprylate de Propanediol	Steararinerie Dubois	Smoothness, excellent spreading, satin-smooth effect, non greasy and not sticking touch, remarkable skinn feel.

Commercial Name	INCI	Producer	Descrizione
DUBCARE OE	Ethyl oleate	Steararinerie Dubois	Ester of oleic ethyl alcohol. Colourless to pale yellow oily liquid with typical taste and odour. It matches the requirements of the European Pharmacopoeia and of the USP/NF.
MEADOWFOAM SEED OIL	Limnanthes Alba seed oil	NPP	GMO free - is the fully refined triglyceride derived from the seeds of Limnanthes Alba. The oil is a light-colored, odor free product composed of over 98% fatty acid with chain lengths of 20 carbons or more. It is prized for its exceptional oxidative stability and provides functionality in a wide range of cosmetic and personal care formulations.
STEROL CC/595	PEG-6 Caprylic/Capric Glycerides	Lamberti	Hydrophilic emollients with good re-fatting properties suggested in liquid soaps and shampoos
STEROL LG/492	PEG-7 Glyceryl Cocoate	Lamberti	Hydrophilic emollients with good re-fatting properties suggested in liquid soaps and shampoos
CALCIUM STEARATE S VEG	Calcium Stearate	Faci	Alternative to Magnesium Stearate as anti-caking in pressed and compact powders or stabilizer in W/O emulsion
ZINC STEARATE EPH VEG	Zinc Stearate	Faci	It can be used for many cosmetic properties: anti-caking and dry binder for powders; it improved water-repellency and oil absorption. Interesting functional activities as antiseptic and astringent for skin protection. Pharma grade.

<b>Commercial Name</b>	<b>INCI</b>	<b>Producer</b>	<b>Descrizione</b>
MAGNESIUM STEARATE S VEG	Magnesium Stearate	Faci	it can be used for many cosmetic properties: anti-caking and dry binder for powders; it has a matte and silky effect and improves adhesions and oil absorption.
ZINC STEARATE TM VEG	Zinc Stearate	Faci	It can be used for many cosmetic properties: anti-caking and dry binder for powders; it improves water-repellency and oil absorption. Interesting functional activities as antiseptic and astringent for skin protection
