LEHVOSS
Personal Care

LEHVOSS Personal Care

is a Pan-European distribution organisation with a long history started in the '70s and strengthened with the acquisition of Paroxite and Biophil group. We have Technical Expertise and, together with our Laboratory, Marketing and Regulatory Services, we aim at being recognised as your specialist solution provider.

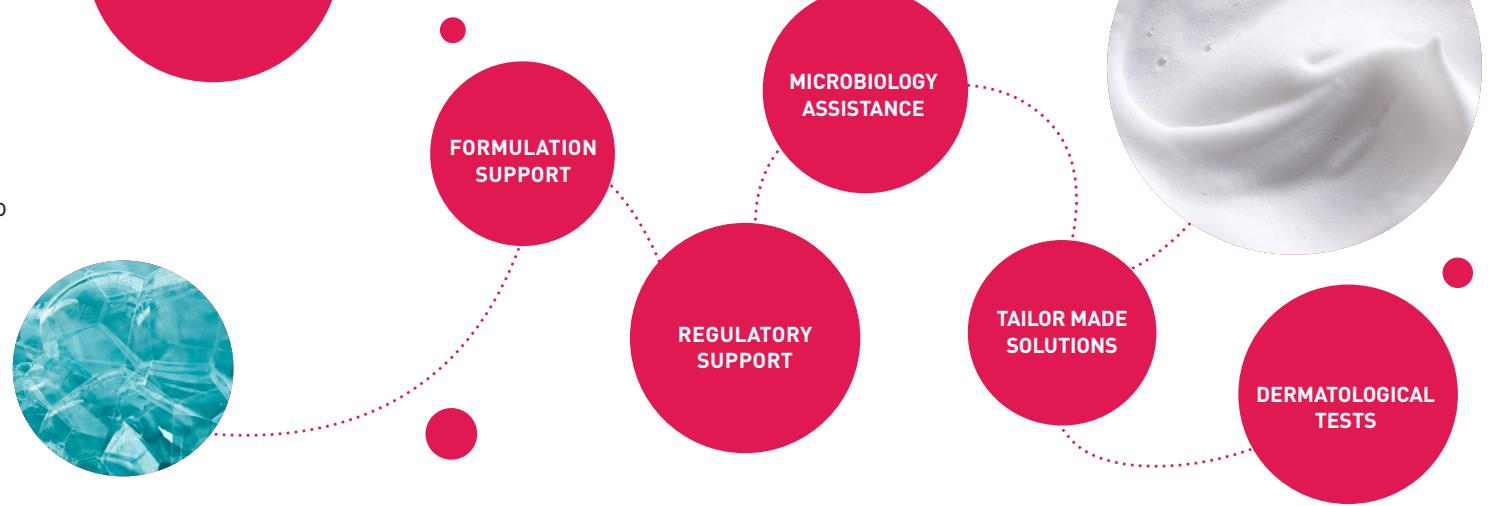

While strictly complying with European standards, the LEHVOSS Group has its own in-house formulation research laboratory and regulatory department to guarantee a more personalized service. Our customers can further count on our technical support in connection with the application of many raw materials we provide ourselves.

ISOCIDE®

ISOCIDE® is a range of preservatives designed by LEHVOSS Personal Care to satisfy the needs of functionality and to meet the increasing market demand for mild effectiveness in personal care.

With ISOCIDE® we offer a complete list of preservatives listed in ANNEX V of Regulation (EC) No 1223/2009 together with a list of multifunctional ingredients used to enhance preservative efficacy and reduce overall preservative concentrations.
